

Global IoT Security Market 2015-2019 – Industry Analysis, Overview

Market Research Store analysts forecast the global IoT security market to grow at a CAGR of 54.93% over the period 2014-2019. The report covers the present scenario and growth prospects of the global IoT security market for the period 2015-2019. To calculate the market size, the revenue generated from the sales of IoT security software solutions used for network security and management is considered.

Global IoT Security Market 2015-2019 - Market to Grow at a CAGR of 54.93% over the period 2014-2019

About IoT security

IoT involve the communication of multiple devices within a network, which enables data transmission between smart devices such as thermostats and sensors that are further connected to mobile devices. In IoT, embedded software, hardware devices, communication services, and IT services are interconnected, which helps in remote monitoring and managing of numerous interconnected devices efficiently. IoT plays a major role in smart homes, smart shopping, smart transportation, and smart healthcare.

With an increase in the number of 2G, 3G, and 4G networks, threat to data has increased. Increase in sophisticated and complex threats and hacking activities are

expected to affect IoT security. IoT security solutions comprise hardware, software products, and managed security services that are used to monitor, detect, and prevent unauthorized access, misuse, or malfunction, or to disable/destroy a computer network. This provides end-users with a secure platform that will help them perform critical tasks.

Market Research Store analysts forecast the global IoT security market to grow at a CAGR of 54.93% over the period 2014-2019.

Covered in this report

The report covers the present scenario and growth prospects of the global IoT security market for the period 2015-2019. To calculate the market size, the revenue generated from the sales of IoT security software solutions used for network security and management is considered.

The report does not include individual device security revenue for market estimation.

The global IoT security market is segmented on the basis of the following:

- Geography: Americas, EMEA, and APAC
- End-user: utilities, automotive, healthcare, and others

Technavio's report, Global IoT Security Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the Americas, APAC, and EMEA; it also covers the market landscape and its growth prospects in the coming years. The report includes a discussion of the key vendors operating in this market.

Key regions

- Americas
- APAC
- EMEA

Key vendors

- Cisco Systems
- Infineon Technologies
- Intel
- Siemens
- Wurldtech

Other prominent vendors

- Alcatel-Lucent

- Axeda Machine Cloud
- Broadcom
- Checkpoint Technologies
- Digi International
- Ericsson
- Eurotech
- Fortinet
- Gemalto
- IBM
- ILS Technology
- Kore Wireless
- NetComm Wireless
- Numerex
- Palo Alto Networks
- Rockwell automation
- Secure Crossing

- Sierra Wireless
- Sophos
- Systech Solutions
- Tofino
- Ventus Wireless

Key questions answered in this report

- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
